

Custom Series 75

Software V3 release notes

Important:

For installation instructions refer to the “Software Update Guide”, available from: <http://www.customseries75.com/site/tech-support/>

General Information

Your Custom Series 75 Software V3 is the result of many months of programming and testing. This version has been re-written from scratch to overcome technical limitations and improve customer experience.

The software V3 contains all important features that have been requested by users. Some previous features have been modified or been even removed as a result of customer feedback.
